## Michele Conlon

Hey John & Justin, I'm going through FY10 APM...

Subject: nano APMs

I'm going through FY10 APMs, and I wanted to ask if you could each give me an update on your 2010 nano modeling APMs? (John's is APM 181; Justin's is APM 179). Since your division GPRA coordinator spot is in transition, we aren't going through the formal TIS review this quarter with ERD. So in lieu of that, could you all send me an email describing the current status and the progress toward the deliverable? A short paragraph - nothing formal - will be plenty.

Is that do'able?

Thanks,  
Michele
